

Career Trek Engineering and Construction

Tuesday, November 19th “A” Day
8:15 AM – 12:00 PM Blocks 1, 2 and 3

Learn about the skills and job functions needed to design, construct and maintain the roads, rails, airports, and waterways used by 621 million Illinois travelers a year. We will meet with Materials, Civil, and Electrical Engineers in addition to other IDoT employees. Learn about their jobs, visit their Materials Science lab, and tour their Communications Center that operates 24 hours a day to monitor the roads in 4400 sq. mi. in northeastern Illinois.

Space is limited to 10 students, so please turn in your completed permission slip to Mrs. Waterman quickly. You will be notified if you will be able to join us or if you will be placed on a waitlist.

Permission slips may be found:

- **Mrs. Waterman’s office located in Student Services**
- **Schoology > Student Services > Career Trek Folder**

Drop off completed permission slips at

- **Mrs. Waterman’s desk in the Media Center or**
- **email completed slips to pwaterman@d211.org**
